

Maker Monday

MAKE YOUR OWN FOSSIL:
Find leaves, flowers, sticks, or toy dinosaurs to use to make your very own fossil. You can create your fossil by pushing it into play-doh or salt dough to make a trace imprint fossil. If you use salt dough, you can have your parents cook it on low heat to harden. **Go to pbpetro.org/kids-corner** to get the recipe for salt

dough and learn more about fossils!

**Share your fossils with us @petroleummuseum,
#petroleummuseum, and #PBPMSTEM.**
