

Maker Monday

Make a Straw Paper Airplane Flier

Materials:

- Straw
- Tape
- Cardstock
- Scissors

Procedure:

1. Start by cutting 5" x 1" strips of card stock. Each airplane will need 3 strips.
2. Once the strips are cut, tape two of the strips together at the ends. You now have one 5-inch strip and one strip that is 10 inches long.
3. Tape the ends of each strip together to create a circle. Repeat this step on the other strip.
4. Once both circles are made, use a piece of tape to secure the end of the straw inside the large circle.
5. Repeat step 4 with the small circle, securing it to the opposite end of the straw.
6. 3-2-1 Takeoff!
